

## Happy New Year from all at WEMCo!

### New Starters

2017 saw us welcome several new additions to the team. Nick and Graham have strengthened the WEMCo Water division, both with their plumbing expertise. Graham also has an extensive knowledge of the water hygiene.

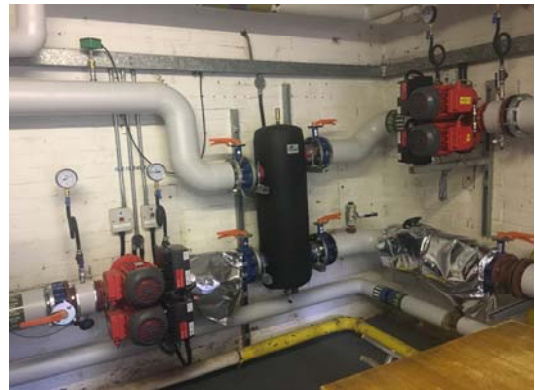

In addition, Heulwen has relocated to the South West and has joined WEMCo as a water hygiene contracts administrator. The new role includes the planning and scheduling of jobs for the engineers, maintaining and updating the live cloud database systems and preparing client compliance reports.

### Dolphin Fountain

We are pleased to be involved in the refurbishment of the Dolphin Fountain on Torquay Seafront. The fountain will undergo a full refurbishment, be painted in it's original colour and have colour changing lights and illuminations to highlight it's intricate features.

We have recently completed a mechanical services upgrade to the plant room and heating system at St Cuthbert Mayne school.

### Apprenticeships

Congratulations to Jamie for successfully completing her Level 3 Diploma in Accounting. Dan is flying through, and started his Domestic Gas back in September.
