

Company Policy

Integrated Management System

Our Policy

The policy will be reviewed annually, as part of the Management Review programme.

WEMCO is committed to continually improving the quality, reliability and efficiency of the services it provides. To achieve this a fully integrated management system is being adopted; independently verified as operating in accordance with the requirements of ISO 9001 (Quality Management Systems), ISO 14001 (Environmental Management Systems), OHSAS 18001 (Occupational Health and Safety Management System). Integral to this commitment is the absolute desire to reduce accidents and work-related ill health to our employees and other persons and to lessen harm to the environment to the minimum level that is reasonably practicable.

We will, in the interests of our business and the service we provide to our customers, promote and communicate throughout the organisation the need for quality, safety and environmental awareness. This shall be achieved by regular meetings, toolbox talks and forums held across the organisation. We will ensure the integrity of service through compliance with appropriate codes, standards and directives applicable to our activities.

Objectives and targets will be set annually in order to ensure continuous improvement throughout the organisation. These objectives and targets shall be measurable and auditable with results being fed back into system improvements.

Our Mission is to provide our employees with an honest and helpful working environment, where every employee individually and collectively, can dedicate themselves to providing our customers with a consistently high level of service and professional integrity.

Our Vision is to be a leader in the delivery of building services maintenance in the West Country.

Our Goal is to think People, Quality and Customer Service
